Index To November Issue - Vol. 30, No. 6

This surname index is for the November 1976 issue of *The Genealogical Helper,* Volume 30, Number 6. The letter indicates the column and is followed by the number of the page on which the column is located. A indicates column 1, B indicates column 2, C column 3,D double column advertisement, and T triple column advertisement. Thus Buck C675 indicates that the surname, Buck appears in the third column of page 675.

This computerized surname index has the following peculiarities in arranging special characters: A space, hypen, or apostrophe is listed before the regular alphabetical order of the letters. For example, they appear in this order: VAN WINKLE, VAN-WINKLE, VAN' WINKLE and VANWINKLE. Another peculiarity is the appearance of all capital letters in the surnames. No distinction is made between small and capital letters as sometimes appear "Mc", "Mac", "Van" or surnames with "de" as part of them.

1976 Subject and Locality Index

The computerized locality and subject index for all issues of *The Genealogical Helper* in 1976 has been arranged as an aid for the genealogical researcher. The locality index includes locations of records not residences of individuals. Locality names found in addresses, Missing Folk Finder, Classified Advertisements, or Registrations are not indexed. Localities mentioned in Registrations and Classified Ads are indexed if the localities include names of researchers, record searchers and if the localities include keys to available records.

The subject index includes names of historical and genealogical societies (if they cannot be placed in the locality file under the county and state), book companies, etc. and genealogical subjects. The subject index does not include names of genealogical societies, libraries, etc. listed in the 1976 "Directory of Genealogical Societies" in the July 1976 issue of *The Genealogical Helper* pages 317 to 355. Some titles of books are included in the subject index, if they suggest an aid for the genealogical researcher.

This index differs from the regular surname index as it shows only the page number. The column numbers are not listed.

The following abbreviations have been used in the locality and subject index:

admin - administrations
